

SV615 Safety Valve

Description

The SV615 full lift, full nozzle safety valve is suitable for steam, air, inert industrial gas and non-hazardous liquid service.

Applications

The SV615 is suitable for the protection of steam or hot water boilers, generators, vessels, receivers and air compressors, autoclaves, downstream of pressure reducing valves and for general pressure relief applications.

Available types

Valves are available in sizes ranging from DN15 to DN50 and have a bronze body with female screwed connections and a stainless steel nozzle. There is also the option of a 1" sanitary clamp inlet connection on the smaller sizes. All valves have a closed bonnet with either a lifting lever or closed cap (gas tight cap option). An optional soft seal is available in Nitrile, EPDM or Viton. Where frequent washdown occurs or aesthetic appearance is a consideration, this product can also be supplied with an electroless nickel plated (ELNP) finish to the body, lever housing (or sealed cap) and lever. A mechanically fastened stainless steel name-plate can also be provided - For full details contact Spirax Sarco.

Screwed female version

1" Sanitary clamp version

Standards and approvals

The SV615 complies with the requirements of EN ISO 4126:2004 and carries the  mark indicating full compliance with the requirements of the EU Pressure Equipment Directive/UK Pressure Equipment (Safety) Regulations.

The Approval Authority and Notified Body is the Royal and Sun Alliance.

Seat tightness complies with ASME/API STD 527- Revision 2002.

Certification

A manufacturers' Typical Test Report is provided as standard for each valve which will include valve set and hydraulic test pressure. Also available on request is material certification in accordance with EN 10204 3.1.

Sizes and end connections

DN15, DN20, DN25, DN32, DN40 and DN50.

Inlet connections

Screwed BSP (BS 21 parallel) or NPT female connections.

1" Sanitary clamp compatible (DN15, DN20 and DN25 sizes only)

BS 4825/ISO 2852/DIN 32676 - Safety valves with these connections have a surface finish of 0.8 µm on primary wetted parts.

Outlet connections

Screwed BSP (BS 21 parallel) or NPT female connection.

Pressure/temperature limits

Maximum set pressure for 1½" and 2" SV615

Maximum set pressure for ½" to 1¼" SV615

The product **must not** be used in this region.

- A - A** Maximum operating temperature with metal seat.
- B - B** Maximum operating temperature with Viton seat.
- C - C** Maximum operating temperature with EPDM seat.
- D - D** Maximum operating temperature with Nitrile seat.

Body design conditions		PN25	
Set pressure range	Maximum	½" to 1¼"	18 bar g
		1½" and 2"	14 bar g
	Minimum		0.3 bar g
Temperature	Metal seat	Minimum	-90 °C
		Maximum	+230 °C
	* Nitrile seat	Minimum	-30 °C
		Maximum	+120 °C
	* EPDM seat	Minimum	-50 °C
		Maximum	+150 °C
* Viton seat	Minimum	-20 °C	
	Maximum	+200 °C	
Performance data	Overpressure	Steam	5%
		Gas	10%
		Liquid	10%
	Blowdown limits	Steam, gas	10%
		Liquids	20%
	Derated coefficient of discharge values	Steam, gas	0.71
		Liquid	0.52
Maximum permitted backpressure			10% of set pressure
Tested at a maximum inlet cold hydraulic test pressure of:			37.5 bar g

* **Note:** Soft seal inserts are not suitable for steam applications.

Safety information, installation and maintenance

For full details see the Installation and Maintenance Instructions (IM-P316-03) supplied with the product.

Installation note:

The safety valve should always be fitted with the centre line of the spring housing vertically above the valve. Ensure the discharge pipework system is sized correctly.

SV615 safety valve selection guide:

Model type	SV615	SV615
Configuration	A = Closed bonnet/easing lever	A
	B = Closed bonnet/sealed cap	
Seal material	S = Stainless steel	N
	N = Nitrile	
	E = EPDM	
	V = Viton	
Finish	P = Electroless nickel plated (ELNP)	
	Q = ELNP and stainless steel name-plate	
Size	DN15, DN20, DN25, DN32, DN40 and DN50	DN15
Connections (Inlet x Outlet)	BSPF x BSPF NPTF x NPTF Clamp x BSPF	BSPF x BSPF

Selection example

SV615	A	N		DN15	BSPF x BSPF
--------------	----------	----------	--	-------------	--------------------

If ELNP finish is required, add 'P'.

How to order example:

1 off Spirax Sarco SV615AN safety valve having DN15 screwed BSPF x BSPF connections, set at 6 bar g.
